Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest an embedded piezoelectric actuator or sensor with electric feed lines which exit through the embedding fiber composite almost perpendicularly to fiber composite laminate layers, whereby the fibers of the fiber composite are not severed by exiting of the feed lines but are pushed apart.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited is intended to show the state of the art.

This application is in condition for allowance except for the following formal matters:

Cancellation of the non-elected claims (claims 10-17) is required before the case can issue.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
